

BRISTOL BAY TELEPHONE COOPERATIVE NEWSLETTER

MAY 2025

VOL. 4 ISSUE 5

BRISTOL BAY TELEPHONE

USDA ReConnect 3 Project Update

We are nearing completion of the final steps in our environmental review process and will soon be updating project schedules accordingly. Once finalized, we will notify all members of our communities.

✉ Email Spam Warning

Bristol Bay Telephone is aware that some of our email customers (@bristolbay.com) have received spam messages requesting email account renewals. **Please note:** we will never send emails asking you to renew or continue your email service.

This is an example of **phishing**, a type of cyberattack where scammers impersonate trusted entities to obtain sensitive information, such as login credentials or financial details. We urge customers to exercise caution when opening unfamiliar emails or clicking on links. If you're unsure about the legitimacy of an email, please don't hesitate to call our office for verification.

BRISTOL BAY CELLULAR

Experience the Power of BBCP 4G LTE - And 5G is Coming!

Bristol Bay Cellular Partnership (BBCP) continues to provide dependable 4G LTE service throughout the region – and the results speak for themselves! One of our customers recently shared how they switched to BBCP before traveling through Michigan and surrounding states, and they couldn't believe how much better BBCP's coverage was, even in areas where other carriers had no signal at all.

We're proud to offer coverage that keeps you connected when it matters most – whether you're at home or on the road.

📞 We want to hear from you!

Have you had a great experience with BBCP's coverage or service? Tell us about it! Your feedback helps us serve you better and expand where it's needed most.

📶 Even better news: 5G is on the way!

BBCP will begin deploying 5G service in Naknek this summer, bringing faster speeds and lower latency to our community. Stay tuned for updates!

ALASKA WEBNET

We continue to offer public Wi-Fi in various locations in Naknek and King Salmon. Look for the Alaska WebNet signs and scan the QR code to start your connection.

OTHER

BBTC has consistently maintained a well-stocked inventory and now offers an expanded range of products. In addition to cellular devices and landlines, we have introduced power strips, UPS units, and more to meet our customers' evolving needs! Swing by when you can and check out these new products
